----- USA Green Card Lottery Simulator is a small program that allows you to feel what is the real chance to win Green Card. USA Green Card Lottery Simulator takes into account the average number of participants each year, the number of winners is 55,000, and simulates the process of random choosing 55,000 winners from the number of participants. When you are one of the winners you will see this. You can make many trials and decide whether or not to participate in the real Lottery. This program is for fun and educational purpose only. The premise, that the more number of participants will mean less chance for one winner, is incorrect. Many people have the same number of IDs, and participating many times makes the average numbers of participants rise. For example, this program represents the lottery "6 numbers from 45". I'm sure, that many people use this software all their life and never win. But they believe, that they will win, and continue using the program. As this software shows, the average number of participants is 1 to 8,145,060. USA Green Card Lottery Simulator latest version:
